

# DATTATRYA GEJAGE

Data Analyst | SQL Developer | Business Intelligence Analyst

+91 8767993580 | dattatraygejage8@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

## PROFESSIONAL SUMMARY

Data Analyst skilled in SQL, Python, and Power BI, with hands-on experience building end-to-end business intelligence solutions through internships and applied projects. Built a Retail Intelligence Dashboard analyzing 99K orders, 99K customers, and ₹16.01 million in revenue across 100K+ transactional records using MySQL, SQL, Power Query, and DAX. Proficient in data cleaning, ETL workflows, statistical analysis, and dashboard development to support business reporting and decision-making. B.Tech Graduate in Artificial Intelligence & Data Science with working exposure to machine learning and generative AI fundamentals.

## TECHNICAL SKILLS

**Programming & Databases** : Python, SQL, MySQL, PostgreSQL

**Data Analysis & ML** : Pandas, NumPy, EDA, Data Cleaning, Data Wrangling, Statistical Analysis, Feature Engineering, Scikit-learn, Regression, Classification, Clustering

**Business Intelligence & Reporting** : Power BI, DAX, Power Query, Data Modeling (Star Schema, Fact & Dimension Tables), Time Intelligence, KPI Dashboards, Interactive Reporting

**Microsoft Excel** : Pivot Tables, XLOOKUP, Conditional Formatting, Data Validation, Charts & Dashboards

**AI & Emerging Technologies** : Deep Learning (ANN, CNN Basics), Generative AI (Prompt Engineering, LLM Fundamentals), Git, GitHub, Jupyter Notebook, Google Colab, ETL, MIS Reporting, Data Warehousing, Decision Support

## INTERNSHIP EXPERIENCE

### AI & Data Science Intern

BetterCode Technologies Pvt. Ltd., Pune

Jul 2025 – Aug 2025

- Built ETL pipelines in Python and SQL to clean, validate, and transform raw datasets for analysis, reporting, and business operations.
- Developed interactive Power BI dashboards with DAX measures to track KPIs, support reporting, and monitor business performance.
- Automated recurring MIS reports using Power Query, replacing manual Excel-based reporting workflows and improve reporting efficiency.
- Partnered with cross-functional teams to translate business requirements into data-driven reporting solutions and interactive dashboards.

### AI Virtual Intern

TechSaksham (Microsoft & SAP Initiative)

Feb 2025 – Mar 2025

- Applied EDA and feature engineering on structured datasets using Python to prepare data for machine learning model development.
- Built and evaluated classification and regression models using Scikit-learn, comparing model performance across multiple algorithms.

## PROFESSIONAL PROJECTS

### Retail Intelligence Dashboard | Power BI, MySQL, SQL, Power Query, DAX, Excel | [Link](#)

- Designed a relational MySQL database using a Star Schema with fact and dimension tables to model 100K+ transactional records from the Olist e-commerce dataset.
- Developed optimized SQL queries using JOINS, CTEs, aggregations, and filtering techniques to analyze 99K orders, 99K customers, and ₹16.01M revenue.
- Built an interactive executive Power BI dashboard using DAX measures, Calendar Table, KPI Cards, and Time Intelligence to monitor revenue trends, average order value, customer growth, and business performance.
- Performed ETL operations using Power Query to clean, transform, validate, and integrate multi-table datasets for accurate business reporting.
- Delivered interactive business insights through slicers, drill-down analysis, and dynamic visualizations highlighting top-performing product categories, customer behavior, sales trends, and review performance.

### Customer Purchase Behavior Analytics | Python, Pandas, SQL, Power BI | [Link](#)

- Cleaned, transformed, and analyzed customer transaction data using Python (Pandas & NumPy) to identify purchasing behavior and spending trends.
- Performed exploratory data analysis (EDA) and SQL-based customer segmentation to uncover buying patterns and customer retention opportunities.
- Designed interactive Power BI dashboards to visualize customer demographics, purchasing frequency, and revenue contribution.
- Generated business recommendations using analytical insights to improve customer targeting, product strategy, and decision-making.

### Executive Retail Performance Dashboard | Power BI, DAX, Power Query, Excel | [Link](#)

- Developed an executive-level Power BI dashboard to monitor business KPIs including Total Revenue, Total Orders, Average Order Value, Customer Count, and Review Score.
- Built interactive visualizations including KPI Cards, Revenue Trend Analysis, Top Product Categories, and Customer Insights using DAX and Power BI best practices.
- Implemented Power Query transformations, data modeling, and relationship management to create a scalable and optimized reporting solution.
- Enabled business decision-making through dynamic filters, drill-down analysis, and interactive dashboards providing real-time performance insights.

## EDUCATION

### B.Tech in Artificial Intelligence & Data Science

Dr. J. J. Magdum College of Engineering, Jaysingpur, Maharashtra

2022 – 2026

CGPA: 8.53 / 10

## CERTIFICATIONS & ACHIEVEMENTS

- Database & SQL for Data Science with Python – IBM (Coursera) [Link](#)
- Data Analysis in Python using Pandas DataFrames (Coursera) [Link](#)
- AI for Everyone – DeepLearning.AI (Coursera) [Link](#)
- NumPy Programming Mastery Python for Data Analysis – (Udemy) [Link](#)
- Microsoft Excel: Excel Beginner to Advanced to Pro 2026 – (Udemy) [Link](#)
- Generative AI for Data Scientists – IBM (Coursera) [Link](#)
- Deep Learning – IIT Ropar (NPTEL) | Score: 71% [Link](#)
- Cyber Security Awareness – (NIELIT) [Link](#)
- Department Treasurer, AI & Data Science Department — coordinated departmental funds from Second Year through Final Year. [Link](#)
- Secured 2nd Rank, Department Quiz Buzzer Competition, AI & Data Science Department (2023). [Link](#)
- Completed BRIDGE Employability Skills Training by Bosch India Foundation. [Link](#)
